

ASOLO

URBAN OUTDOOR 2023

REINTRODUCING A 1970s ASOLO ORIGINAL:

The original Asolo Supertrek debuted in the '70s as a lightweight alternative to our classic, heavy-duty hiking boots.

After a few years on the trail, the Supertrek was retired. Now 40 years later, we've re-introduced the Supertrek as a more versatile version of its former self.

It's comfortable both on the trail and around town, and incorporates durable, lightweight materials, a cushioning EVA midsole, and a new outsole that adapts to a wide variety of terrain. We're proud to re-introduce this Asolo original.

MADE IN EUROPE:

Made in Europe represents the excellence of creativity and craftsmanship. The European excellences are famous all over the world, our artistic and craftsmanship, the genius and a lot of commitment have allowed us to create a completely line of products with top-level characteristics. We live, breathe, design and manufacture high quality, like no other in the world.

SUPERTREK GTX:

Best Vintage Hiking Boots Restyled for Modern Everyday Wear.

The spirit of old-school mountain style is alive and well in a vintage-inspired breed modern hiking boots fit for wearing on and off the trails.

Not much has changed for the Supertrek in the forty-plus years since Asolo began handmaking them at its Asolo, Italy factory. Suede-grain leather uppers with a Gore-Tex waterproof membrane sit atop an Asolo outsole with traction for days. With a pair weighting in at 500 Gr. they are a lightweight boot and fully capable of your next city or hiking trip.

OUTSOLE TECNOLOGIES

EVA MIDSOLE:

The midsole package is designed around the last and made by: mono density EVA offering the greatest support, stability and comfort.

BENEFITS OF EVA MIDSOLE:

- > Excellent cushioning and stability
- > Perfect anatomic support
- > Lightness

SUPERTREK OUTSOLE:

The outsole package is designed around the last and made by Asolo rubber sole with the Sigma Grip compound: the high performance rubber compound featuring traction, grip, durability and self-cleaning action.

BENEFITS OF SUPERTREK OUTSOLE:

- > The rubber bottom has a large area of contact; self cleaning design.
- > The rubber bottom is designed to optimize the grip and durability for each surface or activity.
- > The heel is well sculpted to prevent problems during descent.
- > The rubber bottom compound is Sigma Grip.
