OUR STORY

Born in the Arctic in 2014, **Moonlight changed** how and when we get outside thanks to the most efficient headlamps ever made.

At 70 degrees North, the sun does not rise for over two months during winter. In this environment, a headlamp is more than a simple accessory - it is an essential piece of **safety gear**.

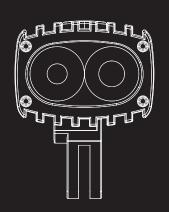

In order to continue exploring our local mountains, we designed **performance lighting** that could endure extreme temperatures whilst maintaining full lumens capability.

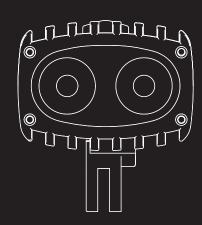

Today, our lamps allow **our community to explore further**.

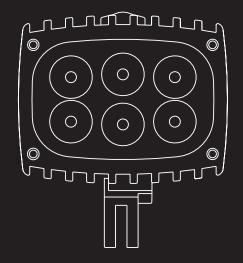

Join the Moonlight Collective to brighten the uncharted!

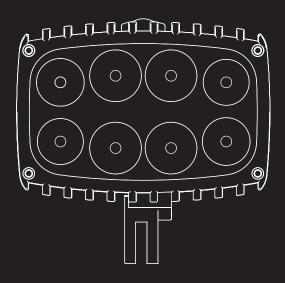

BRIGHT AS DAY COLLECTION

SCALE 1:1

BRIGHT AS DAY 800

BRIGHT AS DAY 1300 BRIGHT AS DAY 2000 BRIGHT AS DAY 3000

BRIGHT AS DAY 4000

KEY FEATURES

BRIGHT AS DAY: 800, 1300 & 2000

15 and 30° lens types

White and crisp light. Better contrast vision No shadow.

One button does it all

Glove friendly. 4 brightness settings. Includes SOS modes. Battery level indicator.

Blade design

Passive cooling in motion allows for constant and real lumens.

BRIGHT AS DAY 800

Aluminium case

Durable and lightweight. Enhanced heat management.

21 700 Battery

1 cell 4,600mAh (3.7v) or 2 cells 9,600mAh (3.7v). Market-leading power and longevity. 2 year warranty. USB-C to USB-A fast charging.

Removable top strap.

Personalized preference for stability in motion.

Reinforced cable

Durable in all weather conditions. 1m extension cable included. IP67 water and dust proof.

Compact headband

Anti-slip rubber. Sleeve for cable management.

GoPro mount compatibility

One lamp, unlimited setup possibilities.

KEY FEATURES

BRIGHT AS DAY: 3000 & 4000

6 or 8 x 15° lens types

White and crisp light.
Wide vision with no shadow.
Desgined for speed in technical environment.

On button does it all

Glove friendly. 4 brightness settings Includes SOS modes. Battery level indicator.

Blade design

Passive cooling in motion allows for constant and real lumens.

Aluminium case

Durable and lightweight. Enhanced heat management.

BRIGHT AS DAY 4000

21 700 Battery

4 cells 4,600mAh (14.8v) shockproof case. Bike friendly rubber. Market-leading power and longevity. 2 year warranty. Fast-charging in wall.

Reinforced cable

Durable in all weather conditions. Furnished with 1m extension. IP67 water and dust proof.

Orienteering headband

Supports the lamp's weight. Furnished.

GoPro mount compatibility

One lamp, unlimited setup possibilities.

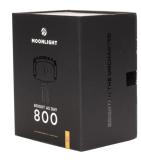

008

An iteration of our lightest and most popular headlamp, the Bright As Day 800 offers real 800 lumens thanks to our Constant Lighting technology. The battery shell has been entirely redesigned to integrate our new Screw Lock, and the run time has been increased by 25% to reach 2 hours at full power! The lamp that won Hardrock 100, Western States 100 mile and UTMB in 2022.

Recommended for all outdoor activities at easy or moderate pace. Ideal for running, hiking and mountaineering.

2000

At 2000 lumens, the Bright As Day 2000 is the most powerful of the Moonlight compact headlamps. With two 15-degree lenses, the light spread gives you better distance vision to anticipate obstacles. Thanks to its versatility, if choosing one lamp for all of your activities, this should be the one!

Recommended for all outdoor activities at moderate to fast pace. Ideal for cross-country and backcountry skiing as well as cycling.

3000

This 6 LED setup delivers up to three thousand real lumens at Constant Lighting. By using the same 4-cells, 4,800mAh battery as the BAD4000, it provides longer running time at full power. Your go-to headlamp for long adventures in the dark!

Recommended for all outdoor activities at a fast pace where precision matters. Ideal for ski touring, gravel biking and orienteering.
