RANGE PRODUCT DOCUMENT

SPRING - SUMMER 2023

Certified B Corporation

Stéphane Miquel
CEO and Founder

OUR STORY

A NICE TRAVEL SOUVENIR

Qwetch's story began when **Stéphane Miquel travelled with friends to Danian in China**, to meet the head of the humanitarian association Couleurs de Chine. **In China, everyone drinks loose leaf tea at any time of the day and especially everywhere**: at home, in rice fields, at work, on buses, in parks, alone or with family…

Inspired by this culture, he decided to develop the concept of **« nomadic tea mugs »** upon his return to France. He **adapted this traditional container in which Chinese people brew their tea every day to the requirements of Western tea and infusion drinkers**. And so Qwetch's adventure began in 2010!

Today, Qwetch is a **purpose-driven company** that offers **reusable and safe food and beverage containers to eat well and stay hydrated**, designed to have a reduced environmental impact and to help those who want to transport their drinks and meals for as long as possible without resorting to single use.

QWETCH IS B CORP™ CERTIFIED

Qwetch is now officially certified B Corp™ and glad to be part of this exciting community of actors, always searching to improve practises and take care of people and the planet.

Being B Corp™ certified means belonging to a community that cares about its impact and seeks to take action. By joining this movement, companies show that they do not want to be the best in the world, but the best for the world.

PURPOSE, MISSION, VISION

TAKING CARE OF PEOPLE AND THE PLANET

As a purpose-driven company, Qwetch is on a **mission to make sustainable lifestyles desirable**. This mission is based on five pillars of environmental and social commitment written in its legal statutes: Movement, Manufacturing, Climate, Circularity and Solidarity.

These five pillars serve a **purpose** unchanged since Qwetch's very beginning: **taking care of people and the planet.**

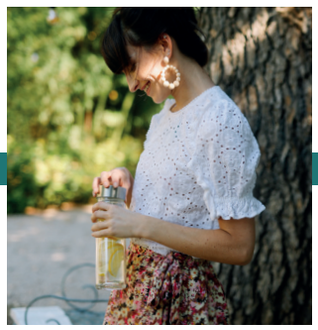

Qwetch cultivates the **vision** of a **happy society where consuming well is not at the expense of natural resources and people.**

PURPOSE

Taking care of **people** and the **planet**.

VISION

A **happy society** where consuming well is not at the expense of **natural resources and people.**

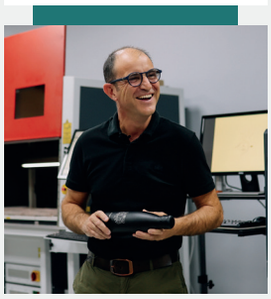

MISSION

Make **sustainable lifestyles desirable.**

OUR 5 CORE COMMITMENTS

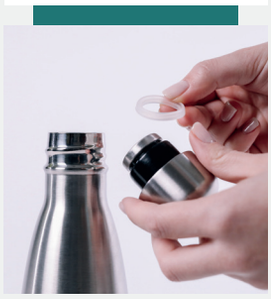

1 MANUFACTURING

Supporting a **continuous improvement of manufacturing methods**, promoting transparency, and studying the feasibility of locating **production steps as close as possible to the end-users.**

2 CIRCULARITY

Improving product eco-designs and circularity to extend products' life cycle.

3 CLIMATE

Measuring our carbon footprint and drafting an **emission reduction strategy** in line with the Paris Agreement.

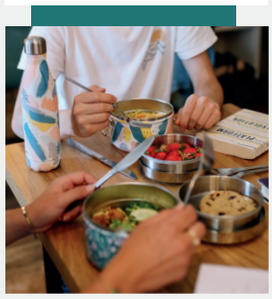

4 SOLIDARITY

Setting up a sponsorship policy aiming at **restoring damaged ecosystems** and encouraging the transition **to a waste-free world.**

5 MOVEMENT

Actively **promoting behavioural change** towards reusable items **and embarking all stakeholders in this movement.**

The coordinating lines are Qwetch's must-haves. Their timeless designs go through the years without taking a wrinkle. They represent our core range, ***the Essentials.***

QWETCH'S COMMITMENT TO SOLIDARITY

Qwetch is committed to associations that fight against the overgeneration of waste and repair or restore damaged ecosystems.

«At Qwetch, we are passionate about our work. Our commitment to the environment often goes beyond the products we sell. Meeting passionate people, people who are committed to the planet, who want to change attitudes alongside us by raising awareness among the general public, is something that is particularly close to our hearts.»

Stéphane Miquel, Founder & CEO of Qwetch.

DECORATED IN FRANCE

In our workshop in Eastern France (Alsace).

REDUCE THE IMPACT BY PRODUCING *less but better.*

Our collections decorated in France are made on bottles from our existing stocks. These bottles with timeless colors are decorated in Alsace, in our engraving and UV printing workshop. This allows us a better management of our stocks, an optimized production and an offer adapted to the demand.

CREATING *local value.*

As a Mission Company, we strive to locate some or all of the manufacturing stages of our products in France whenever possible, in order to contribute to creating value locally.

90% recycled 18/8 stainless steel

Recycled stainless steel is an important step towards eco-designs. Choosing recycled stainless steel allows to considerably reduce the environmental impact of the raw material's manufacturing process.
By avoiding the impact of the extraction, mineral transport, and the energy consumption required to produce virgin material, carbon emissions from stainless steel manufacturing are reduced by 58% (based on SIRSA Qwetch's 2020 Carbon Footprint).
The stainless st
eel used for Qwetch products is manufactured according to the Recycled Claim Standard 2.0 and contains 90% of recycled material.

200 UNITS / CARTON

FOR ANY TYPE OF OF CONTAINERS QDG0540

14 cm QDI3910

QT0015

«The most environmentally friendly product is the one you already own.»

Circularity is one of our pillars of commitment and in a concern of eco-design, we have at heart to make each product last as long as possible. That's why at Qwetch, we offer a wide range of spare parts that allow you to keep your products alive by changing a bottle seal, getting a new lid or replacing the worn out filter of your teapot.

BOTTLES

INSULATED

	LID S.STEEL	GASKET SILICONE	GASKET x3 SILICONE	CARRYING HANDLE
 260 ML / 500 ML	 QDB3020	QDJ3020	QDJ3021	
 750 ML / 1L	 QDB3030	QDJ3030	QDJ3031	
 1,5L / 2L	 QDB3050	QDJ3050	 QDJ3051	 Grey QD3126  Black QDP3050
