

FILTER

**TUBE
& MASK**

BACKGROUND

For nearly 30 years, BUFF® has been driven by innovation and performance, making the BUFF® brand what it is today.

With life feeling not-so-normal at the moment we're all working hard to keep ourselves, our families, and the communities safe and healthy while we try and maintain as much of a regular routine as possible.

Driven by those that rely on our product the most, we listened and then went to work by designing, testing & producing* the new BUFF® Filter Mask and BUFF® Filter Tube, both with the innovative BUFF® Replacement Filter system to keep you safe, while staying active.

*Our BUFF® Filter Tube & Mask are manufactured in Barcelona.

TUBE

Our BUFF® Filter Product offering has expanded with the introduction of the **BUFF® Filter Tube**.

The new BUFF® Filter Tube combines the high-quality recycled performance fabric and 4-Way ULTRA STRETCH comfort of our iconic multifunctional headwear with our 3-Layer certified replacement filter system that provides 99% Bacterial Filtration Efficiency and maximum filter mask breathability.

Designed with purpose and built for all-day active use, we have reengineered the fit, function, and needs of our Original Multifunctional Headwear product.

Certified Product CWA 17553:2020 and
UNE 0065:2020
Tested according to EN14683:2019

Ergonomic design for all-day comfort
without pressure points.

Multiple ways to wear.

Reusable mask made from
95% recycled fabric.

POWERED BY HEIQ V-BLOCK
Treatment applied on inside pocket.

Machine-wash safe at 60°C.
Recommended delicate cycle and less than 30 mins washing program.

Two adult sizes available:
XS/S and M/L, one kids size available.

Registered Community Design.

This mask is not certified as a medical device or personal protective equipment.

MASK

The BUFF® Filter Mask is designed for lightweight wearing comfort while offering 99% filter efficiency.

With the elastic bands the face mask is adjustable on the back of the head for individual fit and avoiding pressure point around the ears.

Certified Product CWA 17553:2020 and
UNE 0065:2020
Tested according to EN14683:2019

Adjustable all-day comfort
with excellent breathability.

Reusable mask made from
CoolNet®.

POWERED BY HEIQ V-BLOCK
Treatment applied on inside pocket.

Machine-wash safe at 60°C.
Recommended delicate cycle and less than 30 mins washing program.

Adult and Kids size available.

Registered Community Design.

This mask is not certified as a medical device or personal protective equipment.

FILTERS

Certified, quality and replaceable Filters made in Germany.

Made from three combined layers, the filter offers 99% Bacterial Filtration Efficiency (BFE) and excellent breathability. Made in Germany to fit the specific BUFF® Filter Mask design this single use filter is glue and latex-free.

Certified filters provide 99% filtration efficiency for surgical mask standard: EN14683:2019 Type I & II.

3-layer filtering system with one layer of melt-blown Nano fiber, enclosed by two layers of water repellent fiber.

Filters made in Germany by Ahlstrom-Munksjö.

Packed in a clean room type.

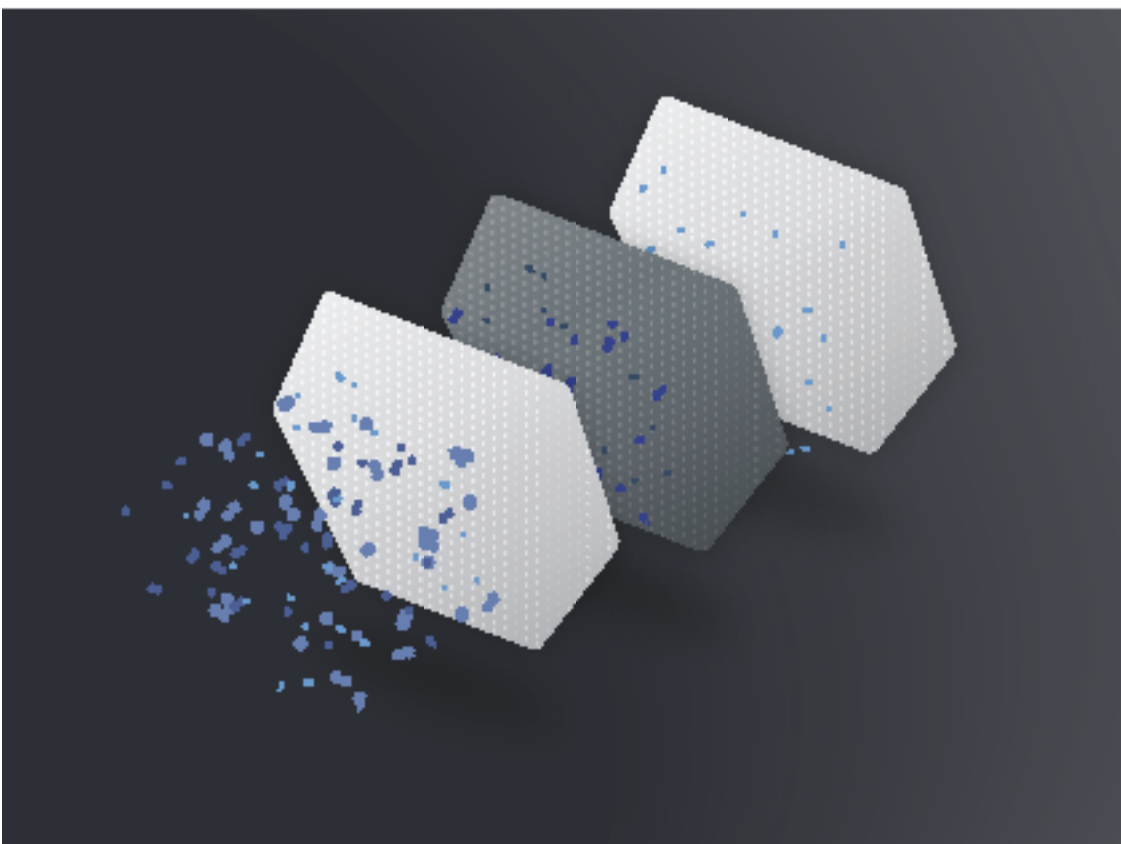

Filters are non-reusable and can last up to one day. Usage time depends on use and environment.

Recyclable in plastic bin.

Adult and Kids size available.
